Career Objective

Computer Science Engineering student with knowledge of Java, Python, C, Data Structures, OOP, HTML, CSS, JavaScript, SQL, and DBMS. Gained practical experience through a Python programming internship and developed a Flask-based healthcare project. Seeking an entry-level software role to apply technical skills and grow professionally.

Education

Bachelor of Technology , Computer Science and Engineering 2023-2027
Ashoka Women's Engineering College CGPA:7.85

Intermediate 2021-2023
KGBV Simhadripuram CGPA:6.54

Secondary Education 2020-2021
KGBV Sanjamala CGPA:9.07

Technical Skills

Programming : Java , Python , C
Core Concepts : Data Structures ,OOPS
Web Technologies : HTML , CSS , JavaScript
Database : Basic SQL , DBMS
Tools : VS Code , Jupyter Notebook , GitHub , MS Word , PowerPoint
Soft Skills : Communication , Team Work , Problem Solving , Adaptability

Internship -Online

Python Programming Intern - Embrizon Technologies **July 2025 – Sept 2025**

- Adaptability Completed a Python programming internship with practical data analysis and programming tasks**.**
- Used Python and Pandas to clean and analyze datasets.
- Handled missing values and duplicate records to improve dataset quality.
- Created basic data visualizations using Matplotlib to represent analyzed data.
- Developed simple Python automation scripts for basic tasks.
- Strengthened Python programming, analytical thinking, and problem-solving skills through hands-on work

Projects

Smart Healthcare Assistant for Disease Prediction and Management
Technologies: Python, Flask

- Developed a healthcare assistant based on user-provided symptoms.
- Processed symptom inputs to generate possible disease predictions.
- Created a simple Flask interface for user interaction.
- Added basic disease information and management suggestions.
- Focused on creating a simple and user-friendly application.

Job Application Tracker
Technologies: HTML, CSS, JavaScript

- Developed a web application to manage and track job applications.
- Added details such as company, role, location, application date, and deadline.
- Implemented application status tracking for different recruitment stages.
- Added bookmark and statistics features for better application management.
- Designed a simple and user-friendly interface for students and job seekers.

CERTIFICATIONS

- Python Programming Internship Certification – Embrizon Technologies
- Web Development Assignment Completion – Gnavasavi Technology
- Cloud Computing – NPTEL
